ECS Configuration Change Request

CCR No. 98-0465	Logged Date 03-13-98	Rev. —	Request Type CCR
Priority Routine ☒ Urgent ☒ Emergency ☐		Affected Release B	Change Class IN

Title (description)
Installation of Spatial Query Server version 3.0.1 in EDF

Documents Affected	Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference
N/A	98-0464

RTM Change ☐   **Start New Baseline** ☐

Problem
Architect Office may mandate use of Spatial Query Server (SQS 3.0.1) for the ECS baseline in the near future.
SDSRV needs SQS 3.0.1 installed in the EDF in order to regression test.
Current version in the EDF is SQS 2.2.2

Proposed Solution
Install SQS 3.0.1 on "Comanche" in the EDF for a 15-day evaluation by Development.

This includes installing the software from CD-ROM, updating applicable Sybase "interfaces" files with the new SQS server name and converting specific database(s) to be determined by Development. This will be used by the Stability Lab.

Neither IDG nor DDM have equipment or resources to perform this test.
